

# Wish List

Your donations go straight to work with these specifically-needed items:

## **Durable Medical Equipment: Walkers and Canes \$500**

With recent Medicare cutbacks, it's getting harder for our patients to purchase needed walkers and canes.

## **Laptops/iPads for Behavioral Health/Psychiatry (2) \$1,400 each**

Our behavioral health clinicians and psychiatric providers would like to start providing services to shelters and other sites, and this technology would allow for us to do this more easily.

## **Breastfeeding Accessories \$1,000**

New moms need personal help and confidence to breastfeed successfully and we have licensed lactation consultants who are there to help. All we need to complete the picture is help from donors with minor equipment and accessories, such as breast pumps for working moms and new tubing and bottles for donated pumps.

## **Story Books for Children Therapy \$200**

We've noticed that many children for whom we provide counseling don't have books to read at home. Taking into consideration all of the many benefits of reading, it would also make us so happy to introduce our youngest patients to classic titles like "The Giving Tree" and "Goodnight Moon."

## **Water Cooler \$150**

Help keep our staff hydrated between caring for patients! We'd love a water cooler for health and convenience.

## **Dental Equipment**

Our dental financial assistance programs ensure access to services for everyone, from low-income kids to homeless adults and newly-arrived refugees. Equipment donations go right to work investing in healthy smiles and a preventative dental home for everyone.

- Water Distiller \$2,000
- X-Ray Unit \$4,457

## **Children Play Areas \$3,000**

The waiting room doesn't have to be uneventful for our kids and parents; rather, it can be a special time when they can play and learn healthy behaviors to take with them as they grow. We'd like to purchase more educational toys and activities for our waiting rooms at various sites.

## **Survival Fund \$2,000**

CHCB purchases and provides a critical basis of wellness necessities in the form of toiletries, grocery cards, bus passes and pharmacy cards, to name a few, for patients who are in desperate need.
